Report to Craven Area Committee 08 February - Inspector Geoff Crocker Craven District

Crime Overview

The figures below are from the beginning of the financial year and are accurate as of 26 January 2018. A change in the definition of what is recorded as a burglary will now effect the figures for the next couple of years as we will see an incorrect comparison appearing on our statistics.

The old definitions of Burglary Dwelling, Burglary Commercial and Burglary Other have been replaced by Burglary Residential and Burglary Business and Community.

- **Burglary - Residential**

The classification of **residential** burglary includes all buildings or parts of buildings that are within the boundary of, or form a part of, a dwelling and includes the dwelling itself, vacant dwellings, sheds, garages, outhouses, summer houses and any other structure that meets the definition of a building. It also includes other premises used for residential purposes such as houseboats, residential care homes and hostels.

- **Burglary – Business and Community**

The classification of **business and community** burglary includes all buildings or parts of buildings that are used solely and exclusively for business purposes or are otherwise entirely outside the classification of residential burglary such as a place of worship. Where an outbuilding is within the boundary of a dwelling, but not forming part of the dwelling building, such as a garage or workshop and is used solely for business purposes this should be recorded as burglary – business and community.

This will I predict lead to an increase in the perception through the statistics of Dwellings being burgled and the simple comparisons with previous years will show increases.

ASB

ASB figures are currently unavailable due to an upgrade in our system which has corrupted the data. There is no statistically significant change. If available information will be provided at the meeting

Stop Search

Statistics are not currently available for Stop Search due to a lag in inputting. The Stop Search Community Monitoring Group met on 22 January 2018 under the chairmanship of Cllr Solloway. The group did sample the 55 reports over the past quarter. 13 of these were BME. Issues rose regarding the lag in inputting, quality both good and bad and the number of checks for Cannabis.

Staffing – The Neighbourhood team is currently fully staffed with 6 constables and 12 PCSOs

Forcewide a reorganisation is currently underway to establish 4 shifts with mostly 12 hour shifts. This amongst other aims will help reduce costs of supervision whilst maintaining numbers of constables at key times. This is planned to be implemented in April 2018.

The camera safety vans have now received infra red capability which will extend their operational hours into the evenings during the winter months.
