**AONB ACTION PROGRAMME 2017/18**

**1.0 PURPOSE OF REPORT**

- 1.1 To receive details of progress made on implementing the AONB Management Plan during 2017/18. The Action Programme for 2018/19, incorporating business planning requirements, is covered under a separate Report on this agenda.

**2.0 INTRODUCTION**

- 2.1 At each Spring meeting the JAC considers a summary report outlining the progress achieved on the Management Plan objectives in the previous year. The Action Programme contains full details of the progress made and has been circulated to Members by email.
- 2.2 A detailed Red/Amber/Green system is used to monitor progress against annual targets, and analysis shows that 82% of the specific targets were fully achieved, 4% were 25-75% achieved, 6% were less than 25% achieved and 8% were not progressed at all.
- 2.3 Statistically this is a very similar performance to the previous year. Targets where no action was completed were largely those that were overtaken by events, relied heavily on action from partner organisations or were/became lower relative priorities for the AONB Unit during the year.
- 2.4 The principal target that we had hoped to achieve more progress on was the restoration of a couple of traditional direction signs. Many of the remaining 'missed' targets will be covered during the Management Plan review process.

**3.0 THE ECOSYSTEM APPROACH**

- 3.1 Achievements this year included:
- Inputting to important local plans such as the Ryedale and Hambleton Local Plan Strategies and the Minerals & Waste Joint Plan, to assess conformity with the AONB Management Plan.
  - Defra funding awarded to Hovingham and Gilling villages, as part of the Ryedale Villages Natural Flood Management Project run by the River Derwent Partnership.

**4.0 NATURAL ENVIRONMENT**

- 4.1 Achievements this year included:
- Continuing to participate in the Biodiversity Action Partnership for Ryedale, Scarborough and the AONB.
  - Carrying out 18 workdays with volunteers on 7 SINCs or SSSIs.
  - Managing a total of 14 grassland sites (all SSSI/SINC bar two).
  - Managing 45 Special Interest Road Verges.
  - Carrying out Himalayan balsam control works at Jeffry Bog SINC, Fairy Dell SINC, Mugdale & Barker Woods SINC, River Derwent SSSI and along Wath Beck.
  - Carrying out rotational scrub management at Terrington Carr SINC, as well as scrub removal at Peel Wood & Grasslands SINC, Littledale SINC, Amotherby Lane SINC and Cawton Fens SINC.
  - Carrying out clearance of rhododendron on Coulton Moor.

- Contributing significantly to the development of the HLF-funded Ryevitalise Project, with attendance at Steering Group meetings, preparation of several of the sub-project proformas and input to the Landscape Conservation Action Plan.
- Contributing significantly to the development of the HLF-funded Turtle Doves Project within the AONB, with site visits arranged, schools involved and volunteers trained for Spring 2018 surveying.
- Providing funding for nature areas at Amotherby Churchyard and Slingsby School.
- Continuing involvement with the North Yorkshire Local Geological Sites Partnership and also commissioning a Geodiversity Audit to survey and map the AONB's most important geodiversity sites. An initial test-run of 11 site surveys was completed, with the remaining c.75 site surveys to be completed by early summer 2018.
- Attending meetings of the North Yorkshire & York Local Nature Partnership, and agreeing a contribution to a continuation funding package.

## **5.0 HISTORIC ENVIRONMENT**

### **5.1 Achievements this year included:**

- Completing work on 2 Local Priority Sites, and 7 other sites/features.
- Restoring traditional village name signs in Coneysthorpe, Coulton, Welburn, Brandsby, Stearsby, Dalby and Skewsby with the refurbishment of 7 old signs and the casting of 6 new replicas.
- Year 3 of the Monument Management Scheme, which is principally funded by Historic England, was a major disappointment. Site visits in July 2017 indicated that bracken spraying on many of the largest sites in 2016 appeared to have been ineffective. Bracken was still head-high and this prevented any possible re-vegetation trials being considered for winter 2017/18. Although bracken was sprayed on 14 SMs in 2017, the weather conditions were so wet that efficiency may well have been compromised on some sites, and again some of the largest sites simply couldn't be sprayed. Bramble and scrub regrowth following cutting in winter 2016/17 was checked on 8 SMs, with stump treatment thankfully showing to have been c.95% successful.
