The report was introduced by County Councillor Don Mackenzie who confirmed that the four junctions and stretches of highway concerned were all the responsibility of the County Council, and each was expected to experience some level of capacity constraint going forward, as evidenced by the Stage 1 design work undertaken in August 2017. He also confirmed that the responsibility for providing the necessary local contribution lied equally with both North Yorkshire County Council and Scarborough Borough Council.

Barrie Mason, Assistant Director for Business & Environmental Services explained the approach taken in calculating the financial risks associated with the scheme and provided details on the breakdown of the costs for the work and the contingency, as shown in the table at 3.1 of the report.
