

**NORTH YORKSHIRE COUNTY COUNCIL****Care and Independence Overview and Scrutiny Committee****28 June 2018****Work Programme 2018****1.0 Purpose of Report**

- 1.1 The Committee has agreed the attached work programme (Appendix 1).
- 1.2 The report gives Members the opportunity to be updated on work programme items and review the shape of the work ahead.

**2.0 Background**

- 2.1 The scope of this Committee is defined as: 'The needs of vulnerable adults and older people and people whose independence needs to be supported by intervention from the public or voluntary sector.'

**3.0 Social Care Green Paper: Department of Health and Social Care Changes**

- 3.1 It was announced last November that the government would publish a green paper on care and support for older people by summer 2018. Damian Green, then first secretary of state, said it was important that the government "took the time needed" to debate the "many complex issues" which surround adult social care.
- 3.2 The promised Green paper was to be about older people and a strategy for working age adults. Both are big issues for NYCC in terms of demographics, quality and cost. Our major demographic and market issues are about older people, but highest costs are around support for people with learning disabilities. Also, the greatest service risk is the scarcity of mental health provision across the County.
- 3.3 Bearing in mind there is also a joint Health Select and MHCLG Select Committees' review of long term funding of adult social care, these three major elements were to be the subject of a broad ranging committee session later in the year.
- 3.4 However, the government has just announced a postponement in the review's publication following the announcement of increased funding for the NHS, emphasising "that it "did not make sense" to publish the green paper before the NHS plan had been drafted.

#### **4.0 Recommendations**

- 4.1 The Committee is recommended to consider the attached work programme and determine whether any further amendments should be made at this stage.
